## Summary

Senior Front-End Developer with 5+ years of experience building modern, scalable web applications using React, Next.js, and TypeScript. Strong background in UI/UX design, performance optimization, and maintainable architectures. Proven experience collaborating with cross-functional teams in agile environments, delivering high-quality products for public-sector, health, and enterprise-scale systems. Familiar with cloud-based workflows and Azure DevOps environments, with growing exposure to AI-driven products. Based in Milan, Italy — open to full remote roles across Europe and LATAM.

## Skills

### Front-End & Frameworks

- React.js (Hooks, Context, Redux)
- Next.js (SSR, SSG, performance optimization)
- TypeScript
- Ionic (React & Angular)

### State Management & Data Fetching

- React Query
- Redux
- REST API integration

### Styling & UI Systems

- Tailwind CSS
- Kendo UI
- Material UI (MUI)
- Styled Components
- shadcn/ui

### Testing & Quality

- Unit and integration testing (Jest)
- ESLint and code quality enforcement
- Manual and automated testing workflows

### UX & Design

- UX/UI principles
- Figma prototyping
- Design systems
- Accessibility and usability best practices

### DevOps & Collaboration

- Azure Repos & GitLab
- Agile / Scrum (Jira, Trello)
- Cross-functional collaboration with backend and product teams

**Capgemini · Milan, Italy (Remote) Senior Front-end developer Aug. 2023 – present.**

- Lead Front-End development of a large-scale streaming platform for the Portuguese Ministry of Health.
- Built and maintained scalable web applications using React and Next.js with TypeScript.
- Designed reusable UI components based on MUI and design system principles.
- Implemented unit tests and enforced code quality using ESLint and best practices.
- Collaborated closely with backend engineers, designers, and product managers.
- Used GitLab for version control and CI/CD workflows.
- Acted as Front-End lead and UI/UX designer, creating Figma prototypes from project inception.

**Ambisig · São Paulo, Brazil (Remote) Front-end developer Sep./2022 – Aug./2023.**

- Developed complex front-end applications using React.js, Next.js, and TypeScript.
- Worked on government-scale systems for traffic management and environmental monitoring.
- Implemented responsive layouts and data-driven UI components.
- Collaborated in agile teams, participating in planning, reviews, and continuous improvement.
- Drove UX refinements and bug resolution cycles, improving product quality across government-scale systems.
- Used Azure Repos for version control and team collaboration.

**S2 Pets · São Paulo, Brazil (Remote) Front-end developer Feb./2022 – Sep./2022.**

- Built mobile and web features using Ionic, Angular v6, TypeScript, Angular Material, and Firebase.
- Developed geolocation-based lost & found feature and a BMI calculator for the MEUPET app.
- Worked in agile sprints using GitLab for version control.

**Web Developer (Early Career) | 2018 – 2022**

Worked on web and mobile projects using PHP, JavaScript, HTML, CSS, Ionic, and Angular, gaining solid foundations in systems analysis, databases, and UI development.

**Languages**

Portuguese	<b>C2</b>
English	<b>C1</b>
Italian	<b>C1</b>

**Certifications**

Front End Development Libraries – FreeCodeCamp.  
JavaScript Algorithms and Data Structures – FreeCodeCamp.  
Software Development – Cubos Academy.

**Volunteer work**

Interact/Rotary — Treasurer & Administrative Assistant (Apr–Sep 2016). Fundraising for social causes including children's homes and student exchange programs.
